For: Dhruval Exim Private Limited, Jinal Industries (Amar), and Vimal Process

Objective

To develop a centralized ERP software (web-based or app-supported) that offers real-time tracking of the entire business process including inventory, production, printing status, accounts, stock, sales, dispatch, and financials across all our firms.

Involved Companies

- 1. Dhruval Exim Private Limited
- 2. Jinal Industries (Amar)
- 3. Vimal Process

Product Categories

- Printed Sarees
- African Printed Cotton Fabric
- Garment Fabrics
- Digital Print Fabrics
- Customized Orders

Key Modules & Features

1. Live Inventory Management

- Raw material stock (grey fabric, chemicals, colors)
- Semi-finished stock (under process: print, wash, fix)
- Finished goods stock (with SKU, design, color, GSM)
- Location-wise warehouse tracking
- Product-wise summary (Saree / Garment / African / Digital)

2. Production Tracking

- Real-time status of ongoing printing (which item is being printed)

For: Dhruval Exim Private Limited, Jinal Industries (Amar), and Vimal Process

- Table printing vs machine printing
- Job work tracking (in-house and third party)
- Stitching, washing, silicate, color fixing, and finishing progress
- Daily production summary (Firm wise and Machine wise)

3. Order Management & Dispatch

- Customer-wise order tracking
- Production priority linked to order
- Dispatch details with AWB, courier name, invoice
- RTO and wrong return record
- Export/Local order tagging

4. Sales & Purchase Records

- Customer-wise sales report
- Supplier-wise purchase report
- Payment received / payment pending
- Purchase of chemicals, grey fabric, packing material

5. Financial Dashboard

- Bank balance tracking (multiple accounts)
- UPI and cash entries
- Daily expenses log (including petty cash)
- Due payment alerts
- GST calculation & auto-reporting option

6. Analytics & Reports

- Daily / Weekly / Monthly Reports:
- Stock summary
- Sales summary

For: Dhruval Exim Private Limited, Jinal Industries (Amar), and Vimal Process

- Dispatch report
- Pending production list
- Excel/PDF download options
- Custom filter: Date, Firm, Product, Status

7. Document Integration

- Attach PDF invoices, packing lists, courier slips
- Upload sample photos or printed fabric images
- Digital PO creation & approval system

8. User Roles & Permissions

- Owner access (all features)
- Factory manager access (production only)
- Accountant access (only financial & sales)
- Custom access rights per staff

9. Notification System

- Email/SMS/WhatsApp alert on:
- New orders
- Stock low warning
- Dispatch completed
- Payment reminders

10. Multi-Device Support

- Web panel (mobile and desktop)
- Android/iOS app (optional, but preferred)
- Secure login with 2FA

Integration Possibility (Optional but Useful)

For: Dhruval Exim Private Limited, Jinal Industries (Amar), and Vimal Process

- Tally/Zoho Books sync for accounting
- Barcode system for stock movement
- Meesho / IndiaMart / Website order sync
- Courier API for real-time tracking

Future Requirements (Phase 2)

- Fabric Design Upload System
- Auto Pricing Calculator
- Job Worker Payment Calculation
- Production Planning Calendar
